All batteries are fully charged “wet” batteries. The Bobcat Battery Reference Guide is subject to change. Bobcat batteries are specifically built for Bobcat machines to withstand the constant and heavy vibrations and extreme climate changes that they endure. There may be more than one battery type for your machine. Your climate and conditions will determine the type of battery you need. Contact your dealer to find the best type of battery that fits your needs.

# Battery Reference Guide

To **find** your machine, type Ctrl+F. A field will pop up. Type in the model number and hit Enter. Your machine type will be highlighted.
